- **Use Anti-Tip Devices:** Always install the provided anti-tip restraints to anchor furniture to the wall.
- **Proper Weight Distribution:** Place heavier items in lower drawers or on lower shelves.
- **Prevent Climbing:** Supervise children and do not allow them to climb or hang on drawers, doors, or shelves.
- **Avoid Heavy Items on Top:** Do not place heavy items on top of furniture, including TV's unless the item is designed for such use.
- **Test Stability:** After assembly, check stability by gently pulling on drawers, doors, or shelves.
- **Regular Checks:** Periodically inspect anchoring devices and furniture stability.

Stay Safe: Anchor Your Furniture Properly

CAUTION: When attaching the anti-tip fixings:

- **CHECK** for electrical wires or plumbing inside the wall before drilling any holes. If you are unsure, seek professional advice.
- **UNDERSTAND** that walls are made from different materials (e.g. solid brick, hollow plasterboard), and it's important to use the correct wall fixings for your wall type.

Your local hardware store can provide the necessary drills and fixings and offer advice if needed or seek professional advice from a tradesman.

AFTER ASSEMBLY:

PERFORM A STABILITY TEST to ensure the furniture is stable and securely anchored. Gently push the furniture to confirm it does not wobble or tip over.

PERIODIC CHECKS:

REGULARLY INSPECT the furniture to ensure that the anti-tip straps or brackets remain securely attached to both the furniture and the wall. Tighten any loose fixings immediately.
